Audio
MUSIC & PA
Systems

With a wealth of product knowledge and many years experience supplying commercial sound equipment to installers of background music (BGM) and public address PA systems, we believe we have the expertise to advise you on all aspects of your sound reinforcement project.

Wireless Presentation

Wireless Presentation

Wireless Presentation Systems play an important role in terms of information sharing in collaborative working environments. These systems enable users to send different types of content (desktop, docs, images, videos, and apps) together with audio from any device to a projector, large monitor or TV. Thus, multiple users can seamlessly present, share, and exchange ideas on the displayed content — without restrictions. Wireless Presentation Systems are used for a range of applications.

- ✓ Small to large meeting rooms
- ✓ Conference rooms
- ✓ Huddle rooms and huddle spaces
- ✓ Classrooms and lecture halls

Video Wall, Projectors and Commercial Display

The world today is defined by data. Amid exponential growth in unstructured data, interaction and collaboration are the two keys to opening up different perspectives and facilitating information exchange to transform that data into insight. The shift from analogue to digital communication is disrupting learning and business models by enabling educators and business people to scale the scope of their analysis.

Video Wall

A video wall is a special multi-monitor setup that consists of multiple monitors, tiled together contiguously in order to form one large screen

Projectors

Accellence makes bright ideas brilliant. digital projection and continues to deliver quality, innovative products we help business and schools share ideas and bring the thrill of high-definition big screens.

Commercial Display

Tell your business' story through high-impact visual messaging. large format digital displays provide professional-grade image quality with superior contrast ratio

LED Panels

Economical solution to other traditional LED panels. Both the indoor and outdoor options are lightweight. The benefits of LED make it ideal for television, trade shows, concerts, events, advertising and much more.
